

Role Description: Clinical Triage Optometrist

Organisation: Primary Eyecare Services

Job Title: Clinical Triage Optometrist

Hours: Currently every other Monday, with flexibility for ad hoc cover highly desirable.

Remuneration: £300 per 7.5 hour session, locum contract.

Based : Home based with travel requirements

Accountable to: Clinical Directors

Primary Eyecare Services (PES) is a provider of high-quality primary and community services. We are the largest collaborative provider of such services in England.

We are looking for a Clinical Triage Optometrist based in the BSW (Bath and North East Somerset, Swindon and Wiltshire) area to provide referral triage of ophthalmology referrals received by the BSW Ophthalmology Referral Triage Service.

The role will be home based with the ability to travel as required to the CCG offices in Devizes and for meetings.

Role purpose

- To provide clinical triage of referrals received by the BSW Ophthalmology Referral Triage Service.

Responsibilities

- To work within the BSW CCG Referral Support Service Team.
- To provide clinical triage of ophthalmology referrals.
- To work within local clinical pathways and CCG policies
- To provide clinical guidance on urgent and emergency referrals as required
- To work collaboratively with local practices, referring optometrists and GPs to ensure referrals follow the correct pathways and local guidelines.

Key Working Relationships

- Primary Eyecare Service Clinical Leads
- BSW CCG Referral Support Service Team
- Other triage optometrists working within the service

All applications to be emailed with a copy of your C.V to recruitment@primaryeyecare.co.uk
