

Bristol community cataract follow-up service update January 2020.

Avon LOC has been engaging with BNSSG CCG (Bristol, North Somerset, South Gloucestershire Clinical Commissioning Group), the Bristol Eye Hospital and other providers with the goal of extending the current Bristol community cataract follow-up service to the whole BNSSG CCG area.

BNSSG CCG finance has asked that only the current versions of the claim forms are used. The Cataract follow-up (Bristol area) payment form and the Referral and payment form (Bristol area) – Glaucoma repeat measures and monitoring are available on our website www.avonloc.co.uk - under the “reference information” tab, drop down to “enhanced services”.

Avon LOC is aware that some community optometrists have had problems setting up their Medisoft accounts. For the Bristol community cataract follow-up service all post-operative data must be submitted via the Medisoft portal and not by post. If you cannot access your Medisoft account please contact us via email: treasurer@avonloc.co.uk

Bristol community cataract follow-up service can only be provided by an accredited optometrist at a practice/store that holds a contract with BNSSG CCG and has the accredited optometrist listed on their contract to provide the service at that practice/store. Contract enquiries can be made with BNSSG CCG by email: bnssg.pc.contracts@nhs.net (please feel free to copy us in to contract enquiries).
