Frome

Newmedica are pleased to announce the opening of one of our latest surgical centres in Frome. The clinic is based in Frome Medical Practice on Enos Way, offering further choice to patients in the area when selecting where to receive their cataract treatment.

Keep reading to find out more about the services we offer, as well as your invitation to join us on a webinar to get more details on the clinic, receive an introduction to our ophthalmologists and find out how to join our accredited partner program.

Newmedica

Eye Health Clinics  Surgical Centres

Cataract surgery is the most common surgical procedure performed by the NHS, as such waiting lists can often become oversubscribed. Newmedica are proud to be partners with the NHS to meet this great need. We promise to deliver cataract pre-op appointments within 4 weeks of referral and surgery within the following 4 weeks as a maximum. Although, it is rare patients wait even this long under our care.

All opticians also have the opportunity to join our 'accredited partner program', enabling you to complete your patient's post-operative checks. For NHS patients we will pay you £43 per appointment, you can also claim any necessary GOS fees on top of this. We also offer a private service for patients wishing to treat their cataracts before they reach CCG guidelines. or those that wish to have a multifocal or toric lens. These treatments start at just £1,995 per eye. For these patients we would pay a fee of £125 per post-operative review appointment.

The Newmedica Frome team.

Joining the scheme is easy, the first step is to attend one of our cataract CET events, follow the Zoom link below to register for our event on the 3rd December. You will also gain 3 CET points by attending.
